Stripe — Black
Trim — Black

Body — Yellow
Stripe — Chinese Red
Trim — Fenway Green

Body — Old Ivory
Stripe — Jasper Green
Trim — Fenway Green

Body — Orange
Stripe — Black
Trim — Black

Where to use Luco-Kwik

Luco-Kwik has a thousand uses — indoors and outdoors. Use it on furniture, woodwork, toys, porch swings and chairs, flower boxes, radiators, kitchen furniture, bedroom furniture, bookcases, end tables, washing machines, sewing machines, waste baskets, etc. It dries so quickly that you can enamel a table after lunch and serve dinner on it the same evening. One coat usually hides all spots, scars, blemishes and stains.

How to use: Anyone can enamel with Luco-Kwik. Just remember to stir contents thoroughly, see that the surface to be enameled is firm, smooth and clean. Luco-Kwik works freely under the brush and flows together to eliminate practically all brush marks. No thinners are required. One coat usually covers, but over new soft wood two coats may be necessary. When two coats are needed, sand the first coat lightly with O sandpaper before applying the second. (Complete instructions are printed on every can).

Anyone can enamel with Luco-Kwik. Just remember to stir contents thoroughly, see that the surface to be enameled is firm, smooth and clean. Luco-Kwik works freely under the brush and flows together to eliminate practically all brush marks. No thinners are required. One coat usually covers, but over new soft wood two coats may be necessary. When two coats are needed, sand the first coat lightly with O sandpaper before applying the second. (Complete instructions are printed on every can).

The brushes to use: One of the important secrets of successful painting is a quality brush. Cheap brushes streak the coat, spread the paint unevenly and leave loose bristles imbedded in it.

Insist on Lucas Tempered Bristle Brushes! They are made from the world's finest bristles, taken from the wild hogs of China. Every bristle is carefully tempered and vulcanized in rubber by a special process.

NEW BEAUTY

For Furniture and Woodwork

LUCO-KWIK

Four-Hour Enamel

For every enameling use
—indoors or outdoors—use

Lucas **LUCO-KWIK**

It is so easy to transform dull, drab objects into things of colorful beauty with Lucas Luco-Kwik 4-Hour Enamel . . . so easy to create color effects which are exclusively yours.

This famous quick-drying enamel, developed in the great Lucas Paint Laboratories, has uses too numerous to mention—for porch and lawn furniture, kitchen chairs and tables, breakfast room sets, odd chairs, toys, woodwork, etc.

Even a child can use Luco-Kwik. It flows so easily, covers almost any surface in one coat, and dries in four hours to a tough, lustrous film that defies sun, wind and rain, knocks, bumps and scuffing.

Learn the thrill of seeing faded, colorless surfaces take on new life, new color, new beauty at the magic sweep of your brush.
